EDUCATION

Dr Mahalingam College of Engineering and Technology*B.E Electronics and Communication Engineering*

June 2026

Current GPA: 7.5/10

SUMMARY

Detail-oriented and versatile Full Stack Developer in designing, developing, and deploying web applications. Proficient in both front-end and back-end technologies, including HTML, CSS(Tailwind), JavaScript (React), Node.js, Express, and SQL and NoSQL databases. Strong understanding of software development life cycle, version control (Git), and agile methodologies. Proven ability to collaborate with cross-functional teams to deliver scalable, high-performance solutions. Passionate about writing clean, efficient code and continuously learning new technologies to enhance user experiences.

SKILLS

Languages: C, Java, JavaScript, HTML, CSS**Tools:** Git, GitHub, VS Code, IntelliJ, Blogger, Wordpress**Library:** Tailwind CSS, React JS, Node JS, Express JS**Database:** MongoDB, PostgreSQL**Devops:** AWS, Docker

PROJECTS

FoodStore / *HTML, CSS, Javascript, TailwindCss, Github, VS Code*

- Designed and implemented user-friendly interfaces for an online food store, enhancing customer experience and engagement.
- Utilized HTML, CSS, JavaScript, and React to develop responsive, fast-loading pages for product browsing, shopping cart, and checkout.
- Integrated payment gateways, real-time inventory updates, and order tracking features.

DiceGame / *HTML, CSS, Javascript, Github, VS Code*

- Developed a dynamic, interactive dice game using HTML, CSS, and JavaScript.
- The project involved creating a responsive user interface, implementing game logic (rolling dice, calculating scores, etc.), and ensuring smooth user experience with real-time updates.
- Utilized JavaScript for random number generation and game state management. The game was optimized for both desktop and mobile platforms with a clean, intuitive design.

WeatherApp / *HTML, CSS, Javascript, TailwindCss, Git, VS Code*

- Developed a responsive weather application that provides real time weather information for any locations. Utilized HTML for the structure, TailwindCss for the styling and javascript for the fetching data from weather API and dynamically updating the UI.
- Implemented the features such as current Temperature, weather conditions and forecast.
- Ensured cross-browser compatibility and optimized for performance.

EXPERIENCE

Internship Studio / *AWS -Intern*

Dec. 2024 – Present

Completed AWS Internship with hands-on experience in Cloud infrastructure, deploying applications
And optimizing performance and cost efficiency.

HOBBIES

- **Playing Sports**
- **Reading Books**
- **Riding Bike**
